### Cattle Growers Council

PUEBLO, March 17 —The 3rd annual meeting of the Southern Colorado cattle growers' association commenced its session at 2 p. m. to day, Dr J McCaskill presiding. Upwards of 150 cattle men are in attendance. Great interest is manifested.

## *GENERAL NEWS.*

### The D[illegible] [illegible]

WASHINGTON, D C., March 17 —The democratic senators resumed their caucus to-day and extended till to morrow evening, the time of the committee for arranging the membership of standing committees. The matter of ballot for officers of the senate was deferred till Thursday. Senator Beck offered a resolution providing in substance that the legislative business of the senate during the extra session shall be confined to the passage of the two annual appropriation bills which failed in the last session, including the political measures incorporated by the house of representatives by the repeal of the federal election laws, and of the juror's test oath and prohibition against the presence of troops at polls. After some discussion the resolution and general subject of order of business were referred to the following committee with instructions to report to the caucus to-morrow or as soon thereafter as practicable. Thurman, Saulsbury, Whyte, Kernan, Jones of Florida, Bailey, Lamar, Voorhees and Vance. All the democratic senators were present at to-day's caucus except Gordon, Maxey and Hampton. Gordon is ill. Maxey is expected from Texas to night, and Hampton has not left South Carolina as yet.

### The Mexican Minister in St. Louis.

ST LOUIS, March 17 —Senor Zamacona, the Mexican minister, arrived here this morning, and was received at the depot by a reception committee appointed by the Merchants' Exchange for that purpose, and conducted to the Lindell Hotel. He will view the Irish procession in honor of St Patrick's Day this afternoon, and be the guest of the Knights St Patrick at their annual banquet to night. To morrow he will deliver an address to the merchants on 'change on the commercial relations between Mexico and this country.

### Indians on the Pacific.

SAN FRANCISCO, March 17. A Walla Walla dispatch says Governor Terry and Gen Howard will go down in the morning to Dallis where they will meet chief Moses in company with Capt Winters from the Simcoe Reservation. Moses was captured a few days ago. The General and Governor both feel confident that this action on the part of Moses and other chiefs virtually ends all probabilities of Indian hostilities in the coming summer. This is the opinion too of the general public.

### St. Patrick's Day.

NEW YORK, March 17. Notwithstanding mud, fog and occasional showers there was the customary observance of St. Patrick's Day only the procession lacked the number of few years ago. In Brooklyn apparently not more than a thousand were in line. Exercises in the Catholic churches in both cities well attended. In the evening balls, banquets, panegyrics and parties take place.

### Alleged Fraudulent Elections.

CINCINNATI, March 17 —There is considerable excitement in this city to day over the reports that the democrats have been gathering evidence to show that Butterworth and Young, congressmen elect from the first and second districts of this city, were elected by unlawful means, that a large number of affidavits have been taken, and will be used in Washington to-morrow to prevent the seating of the above named gentlemen. It is charged that many of the affidavits are signed by fictitious persons, and they will bear close scrutiny.

### Singular Phenomena.

READING, March 17 —It commenced raining here last night and continued until about noon to day. All over the city can be noticed a strange yellowish deposit resembling sulphur, supposed to have come down with the rain.

### Embezzlement

ST LOUIS, March 17 —Geo A Heafford general passenger agent of the Missouri Pacific railway prior to last April, was brought here to day from New York by Deputy Marshal Cobb, on the charge of embezzling a large sum of money from the railroad company, indictments to that effect having been found against him. Chas L White, the former auditor of the road, has also been indicted for the same offense but has not been arrested. Heafford has been passenger agent of the Pennsylvania Central railway in New York and Boston during the past year. The amount alleged to have been embezzled by Heafford and White is estimated at from $40,000 to $50,000.

### Breach of Promise Suit

WASHINGTON, March 17 – The case of Mary S. Oliver, against Hon Simon Cameron for $50 000 damages for breach of promise of marriage, came up in the Circuit Court to day. The plaintiff testified that in 1875 Cameron proposed marriage to her and she accepted him, then letters from Cameron were submitted one of them closing with, "will you be my wife?" Cameron did not come to the house where she lived as he said that the people there did not like it. She saw him quite often in this city. He would come from Harrisburg about once in every two weeks until congress met and then she would see him, at the committee room. There were improper privileges taken with her by Cameron during the existence of the engagement.

### Crimes and Casualties

DEADWOOD, March 17 —In a shooting affray at Sturgis City last evening Charles Williams was instantly killed by a notorious tough known as "Fighting Dan."

Thomas Holton, formerly of Sioux City, yesterday fell fifty feet down a shaft in the Homestake mine and was instantly killed.

CINCINNATI, March 17.—The body of Klein who was lynched back of Newport last night, was left hanging by his lynchers till frozen stiff. The coroner went after it early this morning but it had disappeared and is supposed to have been stolen by parties in the employ of the medical college of this city. There are rumors that the Kentucky authorities will proceed against the lynchers, who made no great efforts to disguise themselves.

## *FOREIGN.*

### [illegible]

PARIS, March 17. It is believed that Waddington cannot remain premier. Fourtner is mentioned as his successor. The opinion gains ground that Gambetta must assume the premiership. Ferry on Saturday introduced a bill referring to the state sole power of conferring degrees, excluding four professorships, members of unauthorized religious societies, and reorganizing the council of public instruction so as to eliminate the clerical element.

Gen. Borel, minister of war under DeBroglie government, has resigned the command of the Rouen army corps.

### The Drow[illegible] City.

SZEGEDIN, March 17 —Emperor Francis Joseph arrived to-day and was conveyed in a boat through the ruined town. About 23,000 inhabitants have been removed. Those remaining are provided with provision. The emperor replying to an address, said his heart was deeply pained at the calamity which had befallen the inhabitants. The people must not be too much distressed, help would come. The emperor was much affected. He started for Vienna this evening.

### A Friendly Understanding.

BERLIN, March 17. The Tagsblatt mentions under reserve a rumor that a friendly understanding will be announced on Emperor William's birthday, whereby the duke of Cumberland will renounce his claim to the throne of Hanover, and Prussia will give her consent to the early abdication of the duke of Brunswick in favor of the duke of Cumberland.

### FOREIGN NOTES.

The damage at Szegedin is estimated at about £150 000.

During the celebration of St. Patrick's day Belfast, Ireland, a fight occurred between the police and the nationalists. Fire arms were used and a number wounded.

A Cairo dispatch says the Khedive has informed the British consul that he apprehends fresh disturbances unless the cabinet is remodeled.

The chief commissioner for British Burmah has sufficient force to protect the British territory, but the position of the president and other Europeans at Mandelay is critical in extreme.

The khedive has requested the Rothschilds to accept the modifications of the securities agreed upon for the new lease. The Rothschilds declined, and have given notice of their intention to suspend advances. The khedive threatens them with legal proceedings.

The story that Col. Pearson had been attacked at Ekowe by a large force of Zulus, and that the latter were defeated with an enormous loss is utterly false. It was probably circulated by the Zulus to delay the dispatch of assistance to Ekowe. The Orange Free State has refused to permit its citizens to aid the British against the Zulus on constitutional grounds.

### TELEGRAPHIC BREVITIES.

Hill, Holt & Parker's factory, Newark, was damaged by fire to the amount of $40,000. Two hundred hands were thrown out of employment.

52 Moonshiners delivered three revenue prisoners out of the Hartsville, Tennessee jail on Sunday morning and took a wagon train which had been seized by the revenue officers.

The United States corvette Alaska, recently arrived at San Francisco from New York via Panama, has received orders to go to Sitka. She will sail as soon as she can take stores on board.

W. H, Ladd, passenger agent for four roads at Columbus, Ohio, has gone to Canada under a cloud. His accounts are estimated to be about $800 short. He has written from Quebec admitting his crookedness and asking time for settlement.

Ex-United States Senator George Goldthwaite died suddenly at Montgomery, Ala, Sunday. There was some disturbance at Helena, Ala., Sunday, growing out of a difficulty between white men and negroes. It assumed such proportions that the governor ordered the Birmingham rifles to the scene. Everything is now quiet.

Two freight trains on the Northern Central Pennsylvania railroad came in collision this morning near Cumberland, both engines were wrecked and 30 cars thrown into the Susquehanna river.

### WASHINGTON NEWS

Subscriptions to the 4 per cent loan since Saturday's report were $1,817 350.

The petition in relation to the cattle export trade will be sent to day to Secretary Evarts. It is signed by many railroad presidents, insurance and bank presidents and prominent merchants.

The greenbackers decided last night to cast their votes for Hendrick B Wright for speaker. Unless they can make their opposition felt on the speakership, they will probably offer no strenuous opposition to candidates for other positions.

In the democratic caucus last night, the first ballot for speaker resulted as follows. Randall 75, Blackburn 57, McMahon 3, Morrison 2, Cox 4. This insures the nomination of Randall for speaker of the 46th congress. On the first ballot the vote for clerk of the house resulted, Adams 76; Caldwell 64. Thompson and Field, the present incumbents, were nominated for sergeant at arms and door keeper respectively by acclamation.

The republican representatives at the caucus yesterday afternoon unanimously nominated the following candidates for the various elective offices of the house. For speaker, Gen. Garfield, for clerk of the house, ex Congressman Rainey; sergeant at arms, Jeremiah M Rusk; door keeper, M Melton, of Tennessee; paymaster, Gen. Harry Sherwood, of Michigan; chaplain, Dr. Maylor, of the Methodist Episcopal church, Washington City. The following resolution was unanimously adopted: Resolved, That it is the sense of this caucus that no legislation shall be entered upon during this session of congress other than that for which the [illegible] was specially called. Only [illegible] vote was cast against the adoption of this resolution. During the preliminary interchange of views a very general desire was expressed that the session should be of short duration. Political topics and questions of party policy in the impending contest were not discussed.

We trust the task of writing that letter is not keeping the genial lawyer of Del Norte from his home

Speaker Randall did all he could to prevent the passage of jobs in the house during the last two days of the session This action seems to have won for him the eternal enmity of a large number of democrats

In Michigan the democratic and republican parties are divided on the question of the election of regents to the state university Michigan should follow the example of Colorado and not make such an election a party issue

The *Inter Ocean* Washington correspondent says that Samuel Carry will be next clerk of the house if he is elected Under precisely the same circumstances the next president of the United States will be a national

We dont see why the south should kick against the re election of Speaker Randall In the 45th congress he gave the south 25 chairmanships out of the 42 at his disposal and in this 25 were all the important committees except ways and means

The Del Norte *Prospector* says the cry of fraud in regard to senate bill 62 has been dropped by all the journals except the GAZETTE True The *News* dropped it to take it up again in 1880 when the state will pass judgement on the republican party If the *Prospector* wishes to place it in the attitude of aiding, abetting and condoning fraud it can do so.

In nine of the southern states in 1876 only 1,873 254 votes were cast when there should have been 2,257,105 if the proportion of voters to the population is the same as in the north. The proportion of voters in the south should be greater as the foreign population is small This looks as though it might be well for the government to exercise some supervision over elections

The Denver *Times* says When Sidney Dillon and Superintendent Clark obtain full working possession of the Kansas Pacific road, it is hoped they will endeavor to run its mail and passenger trains somewhere near on time The almost incessant detentions from one hour to seven and ten hours is an insufferable annoyance which no other road running into Colorado with rare exceptions and from unavoidable causes gives reason for The *Times* ought to know that the above censure should be given to the present management of the D & R G road.

There are unmistakable signs of disapproval from all parts of the country against a campaign in 1880 with Grant pitted against Tilden The *Express* (dem) says If the republicans succeed in getting Grant and Tilden nominated next year the intelligent moral and patriotic sentiment of the country will rebel in the most powerful independent demonstration ever known in our history People of sense will not swallow Tilden or the whole cither It may be well for stalwarts and bourbons to pay a little attention to this independent sentiment

In a forcible article advocating the claims of Mr Blackburn for speaker the *Democrat* says of Mr Randall His republican affiliations are strong and his personal prejudices against the very best men on the democratic side of the house have led him to adopt a repressive policy toward those gentlemen which rendered their services well nigh ineffective, when important issues were sprung The allusion to the repressive policy probably refers to the time when Mr Randall prevented a revolution by compelling the house to complete the electoral count His republican affiliations were also shown at the last session in defeating jobs and rebel claims

Over twenty five years ago an attempt was made to attach general legislation to the appropriation bills Then Senator Bayard father of the present senator spoke as follows I believe the rule which prevents appropriation bill being used as the vehicles for general legislation to be a wise one that it is meant to prevent coercion on the part of the majority of one body over the other body and I think that principle is essential for free deliberation and free discussion and for the proper passage of laws Though I may deem a measure valuable and a great improvement in the administration of public affairs I would rather see it lost and rely upon the sense of the country to return representatives afterward who would pass it than to sacrifice a great principle which I think, lies at the bottom of all legislative organization in free countries, of not per [illegible] [illegible] This puts the [illegible] it would have [illegible] if he had [illegible] spirit as his father [illegible] We know of no more [illegible] method of legislation than the one pursued by the democratic house The democratic house said to the senate pass those bills though you know them to be wrong or we will stop the government It seems to us time that the country should stop the party that does such a thing

The 46th congress will commence its session to day It will be the first time in eighteen years that both houses have been democratic If it would pass good appropriation bills a free shipping law provide for the banishment of greenbacks, and adjourn in a week it would deserve well of the country and would carry the country in 1880 But it can safely be predicted that no such wise course will be pursued for the democratic party has not been accused of wisdom for many a year The probabilities are that party necessity more than the needs of the country will take up most of the session It is not unlikely also that some stalwarts may catch a first glimpse of Hayes backbone

The Bureau of statistics has just given some interesting statistics The following statement shows the percentage of imports to and exports from the United States carried in vessels of domestic build from the year 1821 to the present date

| YEAR | Percentage carried in American ships | YEAR | Percentage carried in American ships |
|---|---|---|---|
| 1821 | 88.7 | 1850 | 72.5 |
| 1822 | 88.4 | 1851 | 72.7 |
| 1823 | 89.9 | 1852 | 70.5 |
| 1824 | 91.2 | 1853 | 69.5 |
| 1825 | 92.3 | 1854 | 70.5 |
| 1826 | 92.5 | 1855 | 75.0 |
| 1827 | 90.9 | 1856 | 75.2 |
| 1828 | 88.9 | 1857 | 70.5 |
| 1829 | 89.5 | 1858 | 73.7 |
| 1830 | 89.9 | 1859 | 66.9 |
| 1831 | 87.5 | 1860 | 65.5 |
| 1832 | 83.1 | 1861 | 65.2 |
| 1833 | 83.8 | 1862 | 50.0 |
| 1834 | 83.0 | 1863 | 41.4 |
| 1835 | 84.5 | 1864 | 27.5 |
| 1836 | 84.3 | 1865 | 27.5 |
| 1837 | 82.6 | 1866 | 32.2 |
| 1838 | 84.2 | 1867 | 33.9 |
| 1839 | 84.3 | 1868 | 35.1 |
| 1840 | 82.9 | 1869 | 33.1 |
| 1841 | 83.3 | 1870 | 35.6 |
| 1842 | 82.3 | 1871 | 31.8 |
| 1743 | 77.1 | 1872 | 29.1 |
| 1844 | 78.0 | 1873 | 26.4 |
| 1845 | 81.7 | 1874 | 27.2 |
| 1840 | 81.7 | 1875 | 26.2 |
| 1847 | 70.9 | 1876 | 27.7 |
| 1848 | 77.4 | 1877 | 26.9 |
| 1849 | 75.2 | 1878 | 16.3 |

These statistics speak louder than any long-spun argument against our present shipping laws Of the $722 811 815 carried in 1878 from this to other countries, only $159 772,720 was carried in our own vessels while a still much smaller proportion of the imports were brought into this country by American vessels If we cannot build American ships as cheaply as they are built on the Clyde then why should not our merchants be allowed to buy their vessels when they can, so that they may have the benefit of the carrying trade rather than foreigners? Of the trade last year carrying freights on over $1 000,000,000 of goods were paid to foreign ship-owners instead of being paid to Americans as they would have been if the odious provisions against free ships were not on our statute books

### THE CHINAMAN IN CALIFORNIA

The following extracts from a letter from Franklin Rhoda of California to the New York *World* throws some light on the Chinese question in that state

I do not exaggerate Let me explain For years and years Chinamen have been assaulted in our streets by boys and men with stones and clubs but it seems almost impossible for them to get justice And now the anti coolies say Oh the poor boys the temptation is too great the Chinese must go

* *

But they will say these were irresponsible parties They are and have never been punished San Francisco has long had in force an ordinance forbidding any one to sleep in a room containing less than 500 cubic feet of air for each occupant Well and good for the health of the city But mark me not a single white man has been arrested under this law in all these years

Does any man doubt that at least half the population of San Francisco nightly violate the requirements of this ordinance? But Chinamen are brought in in twenties and fifties Mark now the diabolical cruelty of these people They said, The Chinaman will not care for imprisonment let us cut off his queue, which he holds sacred, But in order to make it appear well on paper they passed an ordinance that prisoners (and it is easy for a Chinaman to become a prisoner in California) in the city jail should have their hair cut off as a sanitary measure

* * * *

In the days when every gulch turned up gold a few feet under the surface gravel and the products of the soil commanded fabulous prices it is not strange that that grand old but hitherto secluded nation of the east or the west (as we must call it here) should have unbarred the gates to let a few thousand adventurers forth But now things have changed Instead of importing every food product and paying enormous prices for it we now send our wheat along a dangerous voyage of 15 000 miles to Liverpool to compete with wheat raised by laborers paid wages as low as men receive in China We even find it profitable to send our flour to the Middle Kingdom itself while fruits vegetables and fish are put up in cans and dried in untold quantities to feed the people of the Eastern States and the Old World Oh what a change And yet contrary to the dreary prophecies of the disciples of the high wages school, California is greater and more prosperous than ever. * * *

We are beset with men who ask for work at rates no man can pay and because we will not employ them the Chinaman [illegible] congress in its needs [illegible] its way to bolster up [illegible] in the labor market and [illegible] such [illegible]

[illegible] Powers in order to uphold what is nothing less than an enormous strike on the part of white workmen Already they are clamorous about $4 a day and roast beef It is a sad delusion! No power in the land can ever call back the days of the golden prices of labor any more than of the golden prices of bread The gold that justified them has been taken out of the soil

If we could bulldoze England, as these workingmen would do their employers and make her pay ten cents a pound for wheat then indeed might these Utopian dreams of high wages be realized

### An American Artist in Paris

Frank Millet lives [illegible] Montmartre. He is one of those painters [illegible] who are always [illegible] what ever city he may be [illegible] you may be sure of finding him without looking in a directory. Go [illegible] the quarter [illegible] commands the best view [illegible] for the most amiable [illegible] American in the quarter and you will be taken to young Millet's [illegible]. He has a house on one of the transverse [illegible] of the steep hill called the [illegible] and most fittingly so, for our young artist is eastern [illegible] nothing in his pictorial tastes. His domestic management is remarkable for one peculiarity [illegible] feat the suppression of the [illegible] He has a big Newfoundland dog [illegible] concierge who can do everything pertaining to the office as well as a biped except perhaps tell lies [illegible] occasions no inconvenience in [illegible] house. You go up a winding stair to the studio and on opening the door you find you have left Paris for Stamboul. All around about you you have eastern stuff, weapons, pipes, headgear, slippers. [illegible] might give a masquerade to [illegible] and [illegible] his guests up on the premises. He [illegible] powerful painter very likely [illegible] of the future with an eye for rich glowing color, the gift of gifts in the art. Any one of his pictures would prove this. Perhaps the one that proves it best is the study of the bashi bazouk trying the edge of his sharpened sabre, a youthful [illegible] fellow, yet with an eye full of [illegible] of the least pleasant sort. The characterization is capital but the coloring is the great charm. The fellow is dressed in many colored stuffs, and each color is but another victory for Mr Millett. He has wrought them all into perfect harmony and the whole picture has [illegible] of subdued strength—strength not all displayed, which is always one of the notes of a successful work of art. The yellows of the tunic sleeves must have given him great trouble; they have certainly given him a great victory. The sword is peculiar; its cutting edge is towards the holder, not away from him. It seems that the Turks prefer to hook for the heads they want rather than strike for them with a good swinging blow just their [illegible] way. Another charming picture in the studio is a Neapolitan fisher boy; a third, a girl dozing on a hammock in full summer time beneath the shade of leafy boughs; a fourth, a Russian and Turk [illegible] during the truce. I have but one fault to find with these things—they are too slight in subject. Frank Millet is now strong enough to deal with life in its larger aspects, to give us the full drama of action and character instead of the single character sketch.—*N Y World Correspondence*

Savonarola has just received a vindication in a work by Father Bayonne, of the French Preaching Friars, which is reviewed in *L'Union* by M. Larcher, a Professor of the Paris Catholic University. The words used are "Savonarola is a [illegible] [illegible] in the [illegible] [illegible] but the [illegible] [illegible] [illegible] [illegible] [illegible] recently [illegible] [illegible] by the Council of Trent [illegible] [illegible] [illegible] [illegible] [illegible] worthy of remark that the eloquent [illegible] [illegible] the idea of [illegible] [illegible] Savonarola [illegible] model and true Catholic

The latest work of Mrs Vinnie Ream Hoxie the sculptress is a Cupid. The conventional bow and arrow are omitted. In accordance with modern customs the image is tinted in pink. Those who have seen it say it is the most perfect piece of work the artist has ever accomplished. It weighed twelve pounds when first placed on exhibition. It weighs more now.—*[illegible]*

Mr Lampman an old railroad conductor of the D & R G road received his discharge Sunday just as he was getting into his train for Canon

The ladies of the Catholic society of this city were determined that St Patrick's day should not pass without some observance on their part so announced a ball to take place at Court House Hall last evening There was a large attendance and all seemed to be having an unusually good time An excellent supper had been prepared by the ladies and the tables were well patronized during the evening Aside from the pleasure of the evening a substantial amount must have resulted

We were shown yesterday a plan of the new residence of Dr B P Anderson, which is being built on Pike's Peak Avenue It was designed and drawn by Mr. Frank Weston and for beauty of finish and clearness of the most minute details is ahead of anything we have seen for some time In its production Mr Weston has proved himself to be an architect and draughtsman of high order and one whom we expect to see succeed Anyone in need of such work would do well to see Mr Weston

We call the attention of our readers to the new advertisement of Mr S A Driscoll, carriage painter, which appears in this issue He is a new arrival in our city and having purchased of J Baumgarten his shop and business, will doubtless carry it on to the satisfaction of all who may favor him with their patronage. For several years past he was the foreman in the large carriage manufactory at Dubuque Ia owned by Tom Connolly. This alone is a sufficient recommendation of his business capabilities. Those in need of work of this kind will do well to give him a call

### Teachers' Institute

Before the teachers institute which meets next Friday at the public school building in this city Dr A B Clark of the Florissant school will read a paper on School Government Other interesting papers may be expected In the evening Hon J C Shattuck will deliver an address at Court House Hall As this address is intended particularly for parents we shall hope to see the parent of every child in this school district present It will show by their attendance that you have the welfare of your own children at heart

### Court Notes

In Judge Stewart's court Saturday Dewitt and Snyder who were arrested Friday night for throwing stones at the Crawford house were brought up for examination on the charge of malicious mischief Owing to an error in the complaint Dewitt was discharged Snyder was fined $5 and costs amounting to $22 50 which he paid

Yesterday morning Wm Holmes was taken before his honor charged with indecent conduct He was fined $5 and costs in default of which he will work on the streets

Frances Carter a young colored girl was arrested for using indecent language toward Mrs Henry Peyton and for committing a breach of the peace His honor thought Frances owed the city just $5 and the costs in the case which being forthcoming she was released

A man named Braydon was charged with indecent conduct and exposure of his person on the streets He paid the costs in the case amounting to $10 and was dismissed

Hon J C Helm is about to commence a libel suit against the *Tribune* It called him a democrat on Sunday

Mr Geo S Carpenter connected with the Rocky Mountain Transportation Company at Canon City, is registered at the Central

Geo H Jefferay returned from Leadville on Sunday He has contracted the fever in its worst form and his recovery is exceedingly doubtful He will return to the carbonate fields within a few days.

## THE REAL ESTATE MARKET.

### Its Present Aspect and Future Indications

### A Good Demand and Fair Prices the Order of the Day

A few facts regarding the real estate market gathered by a GAZETTE reporter yesterday, showed that the market was very active and firm There are a large number of people in town who are enquiring the prices of lots with a view to buying Many who have come here for health or pleasure have decided to remain, and as they are people who expect to live off of money made in the east they will offer no competition in trade or otherwise but will prove valuable acquisitions Then too, we are receiving more inquiries from the Pacific coast and especially California than ever before People in Los Angeles are making these inquiries with a view of making this their home The prices which have been obtained during the past three months are higher than ever before in the history of our city The indications are that the asking prices of to day will be readily paid by purchasers a month or two hence, and those who buy first will get property the cheapest There is an active inquiry for property on North Weber street and nothing can be obtained at any price on this street between Huerfano street and Platte avenue Several transfers of property have recently been made on North Weber street

North Nevada avenue maintains its reputation for being one of the most desirable localities in the city for residences. The width of the street and its double row of trees form inducements to purchase

Several considerable sales of lots have taken place recently on North Tejon street Among others, Col W T Holt has sold lots 9 and 10 in block 31, to Mr Bjorkquist, who is getting ready to build a house thereon Col E T Ensign is building a good stone house on Tejon street, just south of the college reservation

North Cascade avenue is still considered probably the most desirable part of the city for residences, and several good improvements will soon be made Among others, Miss Virginia King will soon commence the erection of a handsome residence adjoining the residence of Major H McAllister on the south From $500 to $700 for each fifty feet has been offered for property in that locality.

Since the introduction of water property in the southern part of the city has materially advanced and promises to rapidly fill up the gaps in values that have heretofore existed between properties in the respective sections of the city Several improved properties in that part of the city have been sold recently at good prices

Mrs R T Gaines from Fountain has recently purchased the Peyton and Hunt brick house on S Cascade avenue

Among the cross streets running east and west, Huerfano Pike's Peak and Kiowa are considered the most desirable for residences There are but very few lots for sale on these streets and these are held at high prices

In the addition to the town south of Huerfano street and west of Cascade avenue a number of sales have recently taken place Chas Walker will soon break ground for a saw and planing mill on the hill just east of the freight depot. This we understand, will be of ample capacity to supply the wants of the city.

The lands in the northeast part of the town included in Young's and Stewart's additions are picking up in prices Several good improvements have recently been made and others are in progress The indications are that a considerable quantity of outlying land will be purchased for cultivation during the spring

What is true of Colorado Springs is also true of Manitou The hotels there are being fitted up by their respective proprietors with the expectation that the present season will be the best this part of the country has ever known

Reliable advices from the east indicate that such cities as Chicago St Louis and Kansas City will send thousands here this spring New England will also be well represented During the past week one hundred persons a day has been the average of those leaving Chicago for Colorado A letter received by a gentleman in this city from a friend in Kansas City says, We are afraid that Kansas City will be entirely depopulated during the coming year as every one here is talking of going to Colorado

Governor Pitkin is inclined to think that not less than 100 000 new settlers will be added to the population of this state during the coming year To use a western phrase everything is 'booming The last of the following lines will doubtless be realized this year

"No longer from the east alone doth emigration pour
The tide is setting eastwardly from the Pacific's shore
New York and San Francisco meet beneath the mountain pine
And work together in the depths of Colorado's mines "

### The Wallace Sisters

A large audience greeted these celebrated artists at City Hall last evening The play, 'Minnie's Luck, was put upon the stage in a manner seldom seen in this city, and the frequent and hearty applause was sufficient indication that it met with the approval of the audience. The reserved seats(?) proved a perfect farce and although it is a case where the blame falls upon no one we trust that arrangements will be made hereafter by which seats may be *reserved*

### The New Church

The trustees of the Congregational church met on March 17th for the purpose of opening the bids for the building of the new church The bids were as follows Joseph Dozier, $3250, Murphy & Jones, $2 972, S E Sessions $2 925 It was unanimously voted to give the contract to the lowest bidder, S E Sessions esq The contract was signed Work will be immediately commenced and the building completed on or before June 15 1879

## SILVER CLIFF.

### An Interview with Prof J H Kerr

### What he Thinks of the Carbonates and the Country

On Saturday last Prof J H Kerr, after spending three weeks in company with Mr F L Martin in examining the country thereabouts, returned to his home in this city Yesterday afternoon a reporter of the GAZETTE called upon the professor to learn his opinion of the new discoveries at Silver Cliff Finding him at home we briefly stated the object of our call and with his usual good nature the professor signified his willingness to be interviewed

In the first place we questioned him regarding the condition of the mines when he first arrived there

There were said he but few shafts sunk then and these not deep But very little carbonates had been discovered and that of quite a low grade

Then how do you account for the high assays that have been reported ?

They were doubtless made from selected specimens I know of some which ran as high as 300 ounces

Do you consider the mineral to be a genuine carbonate ?

' I do but at present what has been discovered is of a low grade

' Will the ore pay to work it ?

"Several of the mines give good indications of producing pay ore at some time, but that which they are producing at present will not pay on account of the great expense of working it

"What mine has the best showing at present ?

' Probably the Herman A shaft has been sunk 27 feet and they have a showing of nine feet of mineralized matter, but of what grade I could not determine

' It has been asserted that these carbonate beds are a portion of a great belt extending from the Leadville regions Do you think it correct ?

'I do not In my opinion the carbonate belt is but local and not connected with the Leadville belt

"Would you consider it safe to invest much capital in these carbonate claims ?

I did not see anything among them I would dare risk money in until it had been thoroughly tested There is considerable rascality going on there and it becomes every one who purposes investing to be very cautious This does not exist, however, among the miners, but mainly among those who have come in with the determination to make something in any way possible

"Is there much 'salting going on?

"A great deal Those engaged in it commenced by 'salting their own claims and if they were discovered in this would 'salt their neighbor's so that theirs being adjacent would be benefited by any rise in the property '

' How will the camp compare with Leadville?

"After a careful examination of the entire camp, I don't think it is to be compared with Leadville but of course a camp might be a very good one without being near as good as Leadville '

' Has there been any galena discovered in the carbonate district?

"Yes. *In two mines galena* was found in thin layers which was said to have assayed from 30 to 40 ounces

"What do you think of the Silver Cliff mines?

' I do not think that what are known as the Silver Cliff mines will rank with the first-class mines of that locality in a year from now

' What mines do you consider first class?

'The Domingo, Racine Boy, King of the Valley and Platte Verde *are the four* principal mines

"What do you think of the future of the district?

' I do not consider that the rise or fall of that particular belt of carbonates is dependent upon the success of the district As far as I am able to judge from the field I went over, there will be from 20 to 30 different groups of mines within a radius of ten miles of Silver Cliff

"In that case the country is a good field for prospectors is it not ?

'Yes, and those who are spending their time in the so called carbonate beds are making a mistake There are by far more certain indications of rich mineral in the surrounding country than in these beds, notwithstanding the fact that the developments made there during the past ten days surprised me

' What do you think of the future prospects of the district ? '

I think they are very bright I would advise people not to pay so much attention to the carbonate beds but to take their picks and shovels and go to work in the surrounding country Until more decided developments are made it would be impossible to judge very definitely in regard to the future

Prof Kerr brought with him several hundred specimens of mineral taken from that locality which he intends to test, the result of which he has promised to acquaint us

A Leadville contractor has offered a saw mill man, who is to get his machinery in motion in two weeks from now, twenty-five dollars a thousand for all the lumber he can cut from that time until the end of July. The mill man hesitates.
